## PRESENTATION

Tjalve Sports Club and the Iberogaine are thrilled to announce the 2025 Rogaining World Championship (WRC 2025), which will be hosted in the magnificent natural setting known as “Sierra de Pinares” region, in the province of Burgos (Spain). The WRC 2025 will take place between the 5th and 6th of July 2025, aiming to be an unforgettable experience for those who love orienteering.

The participants will navigate during 24 hours through varied terrains using their orienteering skills within an outstanding natural environment. The territory encompassing the villages of Quintanar de la Sierra, Neila, Palacios de la Sierra, Regumiel de la Sierra and Vilviestre del Pinar offer a perfect setting for this competition. Located in the Sierra de Neila and Sierra de Urbión, this mountainous area provides an exciting challenge and stunning landscapes that will make this championship a unique experience.

The WRC 2025 not only promotes sport and healthiness, but also aims to respect and protect the environment. We have taken all necessary measures to ensure that the environmental impact is the least possible and that each participant can enjoy the natural beauty of the region.

We would like to express our sincere gratitude to the Organization, volunteers, collaborators and sponsors who have made this event possible. Their dedication and effort are the pillars to achieve the championship’s success.

We are pleased to invite you, wishing all the participants to give their best and enjoy a wonderful experience. We are confident that the 2025 Rogaine World Championship will be recalled as one of the best events in the history of this sport.

See you soon in Quintanar de la Sierra (Spain)!

Gonzalo Santonja Gómez  
Consejero de Cultura, Turismo y Deporte

## WORLD ROGAINING CHAMPIONSHIP

### GREETINGS FROM THE MINISTER OF THE REGIONAL GOVERNMENT (JUNTA DE CASTILLA Y LEÓN) FOR CULTURE, TOURISM AND SPORT

**19<sup>th</sup>**  
**World Rogaining**  
**Championship**  
**5-6 July, Spain**  
Quintanar de la Sierra  
Burgos

It is an honour for Castilla y León that the 19th Rogaining World Championship (WRC2025) will be held in 2025 in Burgos, succeeding the 18th Championship celebrated in California (USA), next to Lake Tahoe.

Sport is a priority for the Junta de Castilla y León. Therefore, we trust that this event will be a magnificent opportunity to strengthen ties between the youngest and the oldest, reinforcing harmony and family principle, very present in orienteering sport.

The championship will take place in the province of Burgos, in the Alta Sierra de Pinare Community, a privileged natural and geographical location, across five municipalities in the province: Quintanar de la Sierra, Palacios de la Sierra, Regumiel de la Sierra, Vilviestre del Pinar and Neila. Junta de Castilla y León promotes the educational value of sport and we believe that this competition will leave an indelible and very positive example for the inhabitants of mentioned communities particularly among the children and teenagers.

The event will allow participants to enjoy some of the most beautiful and unique landscapes of the Community, as well as finding out the proverbial nobility of its people and getting to know about the traditions and values of this land.

The efforts being made by municipalities and institutions to host this sport event will enhance the international projection and prestige of Castilla y León. Welcoming participants from many different countries, it's a dream of hundreds of persons coming true. I am certain that the celebration of this championship will also serve to promote physical education and the orienteering sport in rural areas, motivating healthy practices and lifestyle habits

I sincerely thank all the co-operating institutions for their support, as well as the private sponsors, large, medium and small companies for their efforts, since they are making the WRC2025 a reality.

I am sure that this event will contribute to promoting sport and rural tourism in Castilla y León, at this Burgos setting of unique gastronomic wealth and scenic beauty.

We look forward to seeing you in July 2025 in the province of Burgos.

# ORGANIZERS

Tjalve Sports Club and IbeRogaine Association are the organizers of the WRC 2025 in Burgos (Spain).

Tjalve Sports Club was established more than 30 years ago. Tjalve is composed by a cross-functional team that holds diverse skills and expertise background in the organization of orienteering events. For instance, Tjalve's recent track record includes the celebration in recent years of the IbeRogaine 2024 Spanish Championship and the Ultra Score MTB-0 2023 Spanish Championship.

IbeRogaine together with its member clubs organized the 10th and 13th European Rogaining Championships, in 2013 in La Llacuna (Catalonia) and in 2016 in Aralar (Navarre) respectively. And the 16th Rogaining World Championship in 2019 en La Molina (Catalonia).

From the very beginning the organizers have had the firm support of the municipalities that encompasses the Alta Tierra de Pinares Community, the General Directorate of Sports of the Junta de Castilla y León, the Provincial Council of Burgos and the Orienteering Federation of Castilla y León (FOCYL).

We are confident that the organizing team, composed by a mix of experienced guides and rogainers, combined with the enthusiasm of other runners and volunteers, will be the perfect recipe to deliver a successful championship.

We will work hard to achieve our objective!

# LOCATION

The area where the WRC 2025 will be held is located in a mountainous area in the northern interior of Spain, in the Sierra de Neila and the Sierra de Urbión, belonging to the Iberian System.

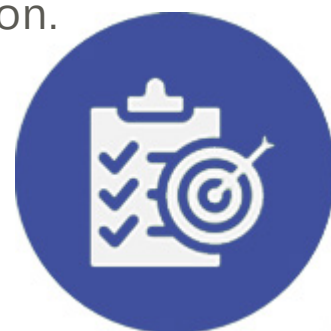

The area has sufficient infrastructure to accommodate both participants and organizers. At the same time, the town of Quintanar de la Sierra, where the Competition Center will be located, has a large capacity campsite where all participants can be accommodated. Next to these facilities there is a large recreational area, ideal for locating the Competition Center, at the foot of the mountain and with large space to install the infrastructure and services involved in the event for a week: services for participants, Free camping and large space to host the competition.

On the other hand, the province of Burgos and the region of Castilla y León are territories full of history, which offer many possibilities of all kinds to the visitor from the cultural aspect, without forgetting their gastronomy, landscapes and sports offer... Good incentives to enjoy the WRC2025 and excursions and visits to the region.

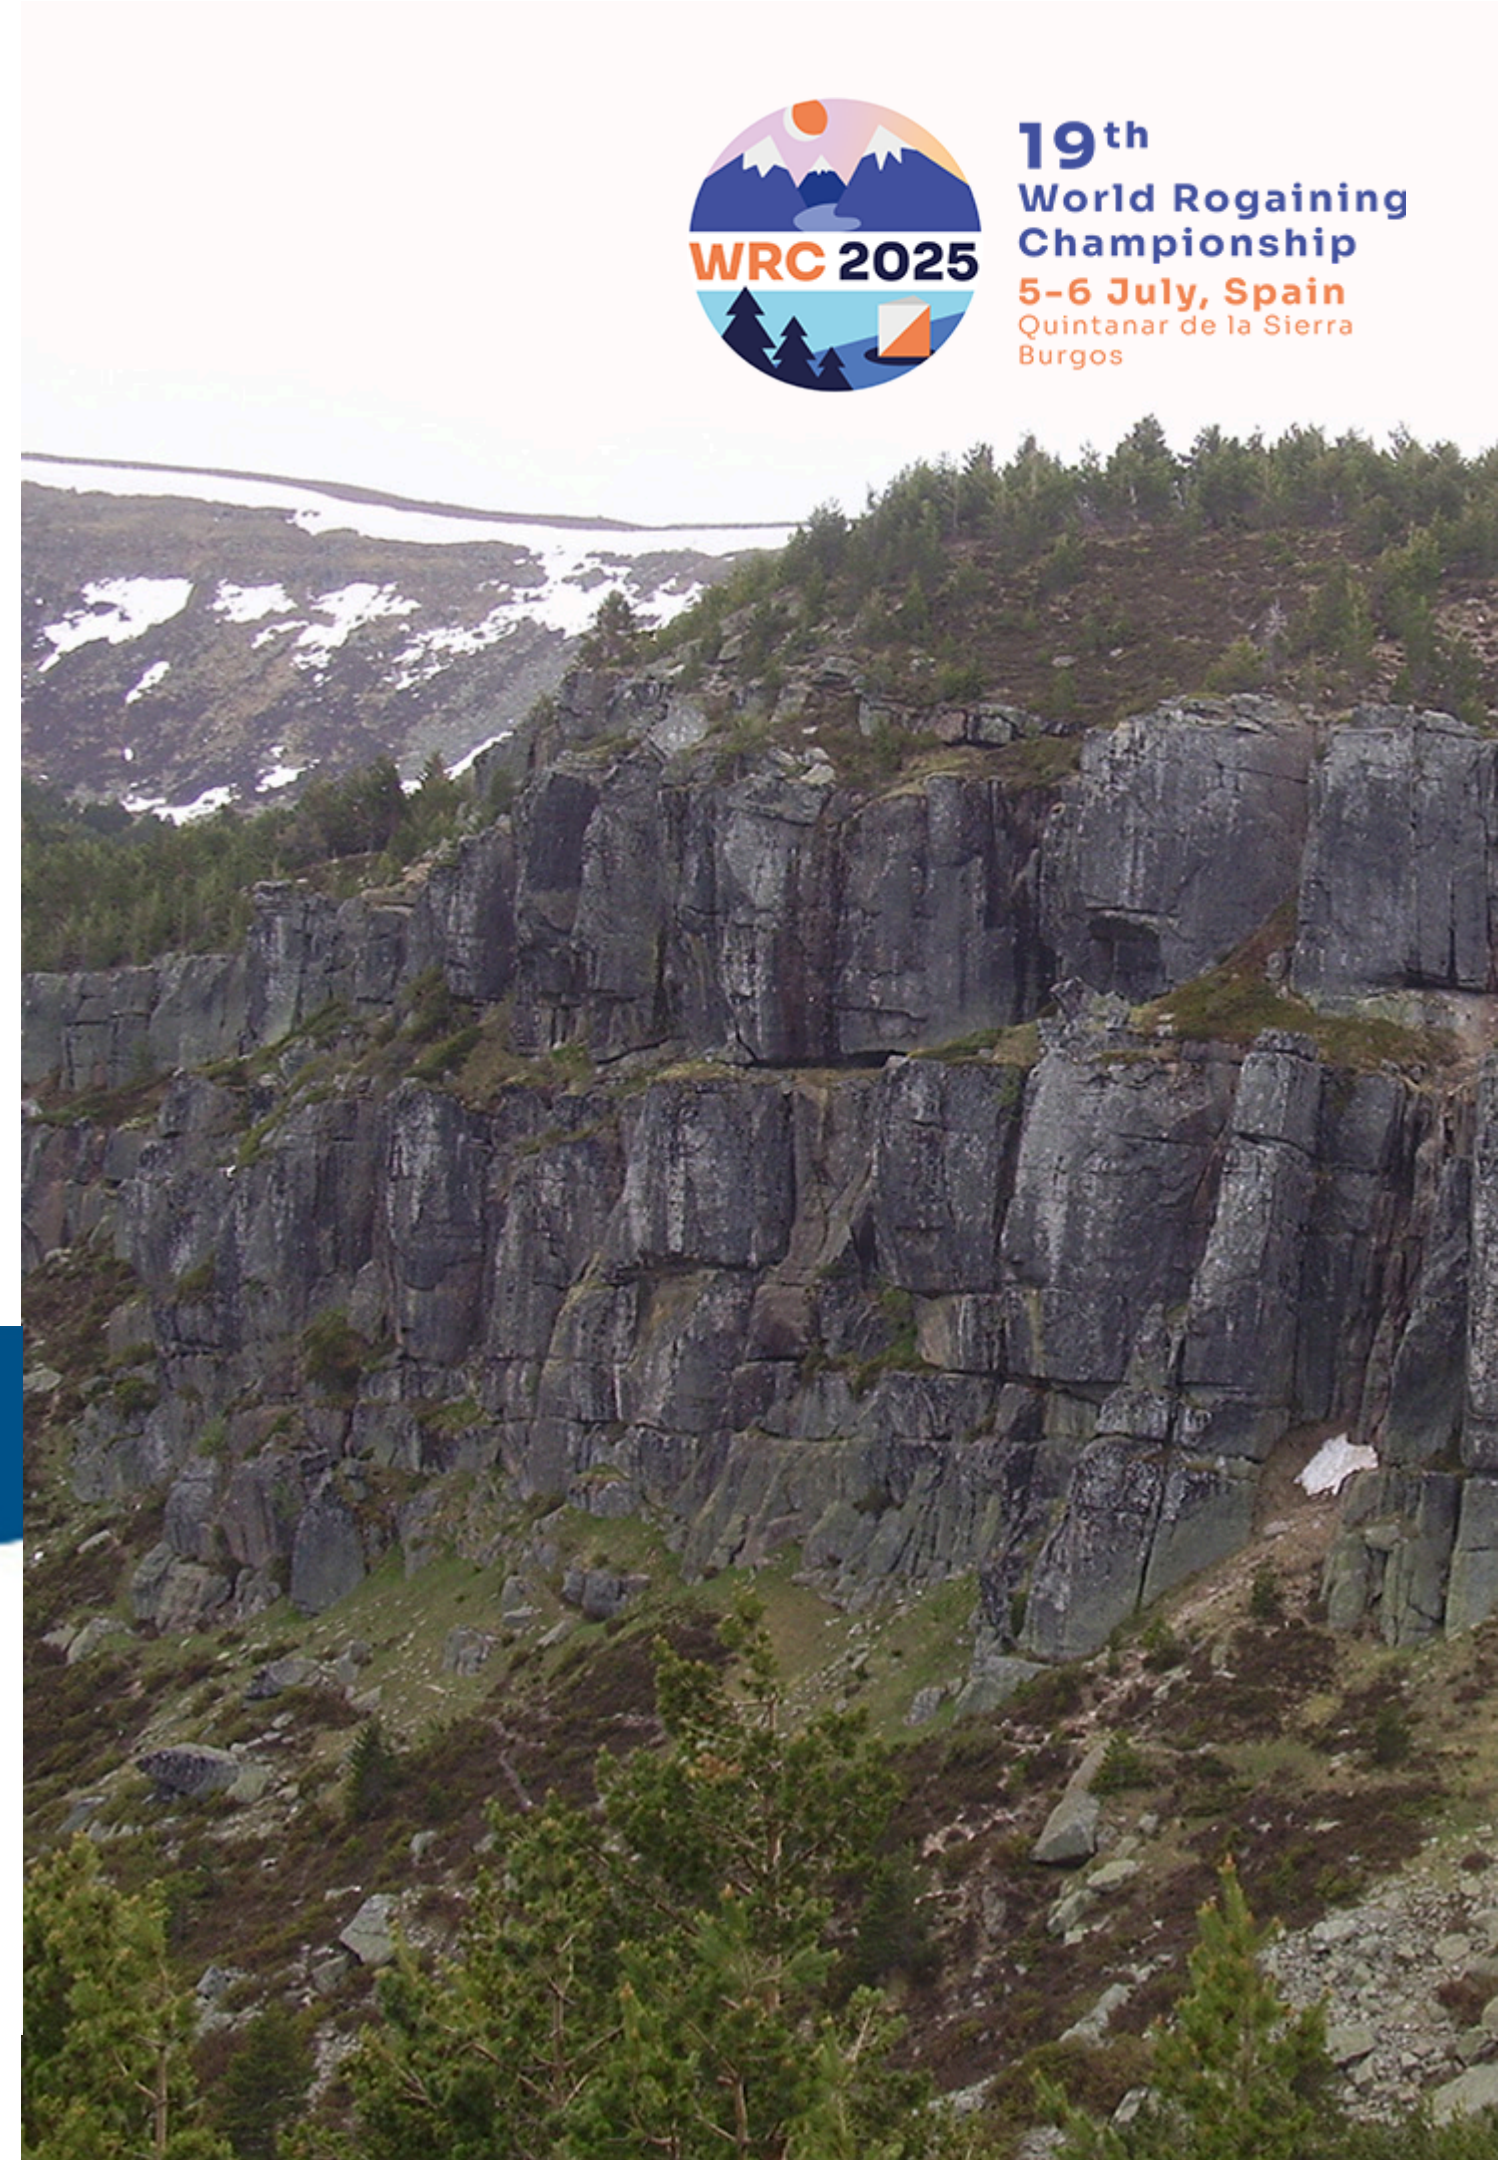

## DATES

Saturday 5th and Sunday 6th July 2025.

Essentially, the dates of the event have been chosen following climatic factors and daylight hours. The area comprises predominantly a continental mountain climate, encompassing large areas of the terrain located above 2,000 metres above sea level. Hence, at this time of year the conditions are the most optimal for the Rogaine World Championships, the weather during this period presents favourable temperatures (between 5°C at night and 30°C during the warmer days) and less chance of rain, although there could be summer storms.

# HISTORY OF THE AREA

'Tierra de Pinares' region is a natural region located in the autonomous community of Castile and León, comprising the southeast of the province of Burgos and the northwest of the province of Soria. Bordering La Rioja to the north are the Neila mountain range, Urbión Peak, and the Cebollera mountain range, and bordering the Río Lobos Canyon and the Cabrejas mountain range to the south.

This region is part of a group of 25 municipalities, 17 in Soria and 8 in Burgos, with a total of approximately 16,000 inhabitants. There are some beautiful old towns in the region worth visiting, such as Vinuesa, Pineda de la Sierra, and Neila. The main industries are wood and stone.

Tierra de Pinares region is also known for having a large concentration of necropolises, the Alto Arlanza Necropolis. There are up to six sites within the competition area. The most famous are the Cuyacabras Necropolis and the Revenga Necropolis.

The hydrography is marked by the Duero River, which flows through the region from the southern slopes of Mount Urbión. The abundance of water, derived from mountain rainfall, forms the rivers and streams that flow through the region. The Neila River, a tributary of the Ebro River, also originates in the region.

## COMPETITION TERRAIN AND MAP

The competition area comprises approximately 150 km<sup>2</sup>, and is in the Iberian System, a mountain system in the interior of northern Spain. It covers the Neila and Urbión mountain ranges. Its highest points are “Alto de la Campiña” (2,049 m), Muñalba peak (2,073 m) and Tres Provincias peak (2,056 m). Its lowest points are in the towns of Quintanar de la Sierra (1,110 m) and Palacios de la Sierra (1,050 m). You can find the map in [mapant](#).

The aforementioned mountainous area presents a physically demanding terrain, in which the elevation gain to overcome will be the determining factor or at least a quite important factor for the participants. Navigation and strategic skills will be essential to approach and attack the controls if the rogainers want to successfully optimize their race strategy.

Forested areas cover 70% of the map, with pine (*Pinus sylvestris*) forests being the main floral protagonist, generally quite passable. The open areas are mainly on the summits and are formed by meadows and some more or less stony areas, relatively passable, located mainly in the glacial cirques formed in both mountain ranges. Rock formations are also frequent, which form large, spectacular stone labyrinths. The network of paths, forest tracks and trails is quite extensive, allowing good accessibility to the entire competition map.

Everything described above together with a multitude of hidden places of singular beauty, spread over many points of the terrain form an extremely unique scenario, with a multitude of possibilities to navigate, and at the same time, enhancing a wide range of strategies, making it a very attractive and irresistible area to compete in this sport discipline (rogaining).

The scale chosen for the mapping will be 1:25,000 with an equidistance of 10 meters. The competition terrain covers a virgin mapped area in the field of rogaining and orienteering, meaning that there are no maps of the area. Competitions have never been held on this terrain, therefore no rogainer has an advantage over his opponents in this respect.

The map will be printed on tough, waterproof paper. Biro, whiteboard markers and permanent markers work well on the paper, however highlighters take about 1 minute to dry. Pencil does not work. Covering the map with contact is optional.

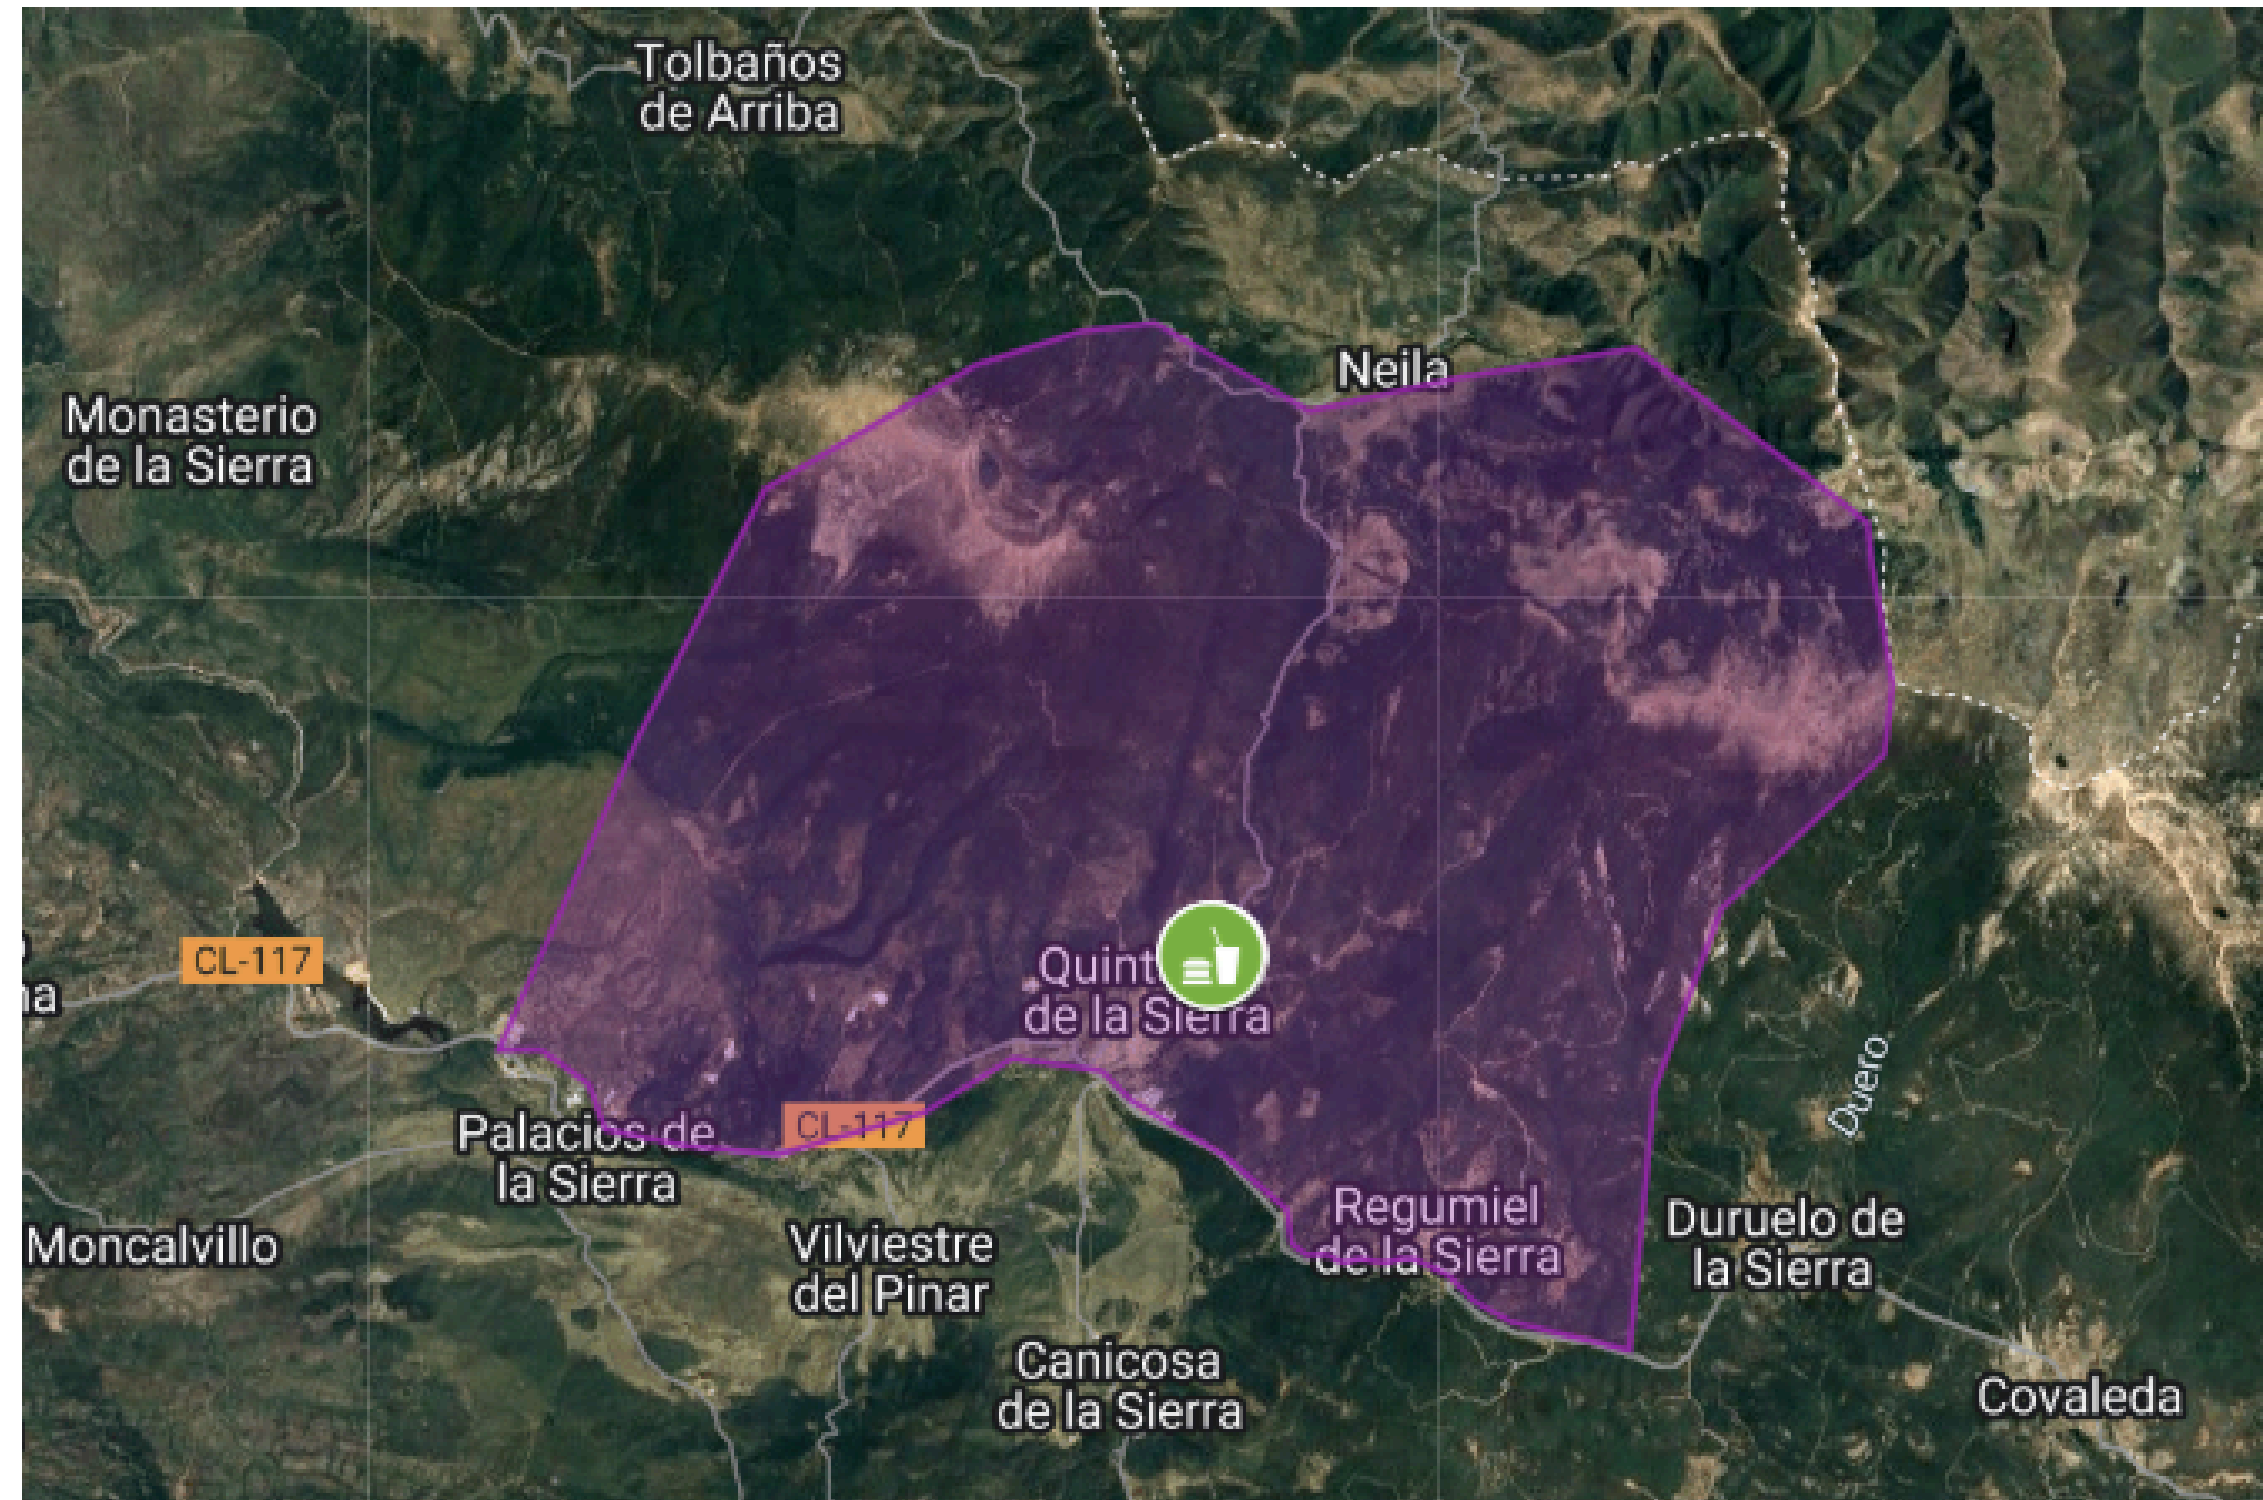

# EMBARGOED AREAS

The embargoed areas can be found on the official web site of the event.

- The checkpoints will include reflectors.
- Each competitor must wear a SPORTident card. The card shall be worn on the wrist by means of a non-removable bracelet. It must be worn by the competitor from the start until the finish line. Correct fastening/locking will be checked upon entering the starting enclosure or “corral” and at the finish line.
- All runners must wear the race number provided by the organization.
- The course planning it will take place in the HH in Quintanar de la Sierra, from 9 am to 12 am.
- For safety purposes and in accordance with the rules, the teams must always remain together. Team members are required to pass through the controls with a maximum time difference of one minute between the first and last team member.
- The GPS units provided by the organisation include an SOS button. In an emergency the button can be pressed by the participating team. By pushing the SOS button the device sends the geolocation to the organisation and triggers the action protocols.
- Walking poles may be used.
- The organisation will provide a carton, the size of the map (50x70cm) for the strategy time.

## SUPPLY STATIONS

A Hash House (HH) refreshment station, offering both liquids and solid food, will be set up near the finish area. For the race, participating teams must anticipate their needs and carry their own supplies during the event or plan their strategy considering the presence of the HH. All liquid refreshment in both HH will be suitable for drinking.

There are several water points in the area, as well as fountains in the village squares. Many of the water points on the course are natural springs and some clean running water. The local people drink the spring water without treatment, however you may want to sterilise it, due to cattle, sheep, goats, horses and donkeys graze in the area. So it's recommended to carry your own water purification tablets. If necessary, due to drought, the organization will add additional artificial refreshment points.

In the town of Neila, a Half-House service will be available, providing liquid refreshments (including hot drinks) and solid snacks (cold). It will be open from 7:00 PM to 7:00 AM.

Furthermore, there will be some grocery shops in the map area, where competitors can buy supplies. These shops won't be printed in the map.

## INSURANCE AND MEDICAL ASSISTANCE

An insurance covering medical coverage will be included in the registration fee, with Allianz Insurance Company.

First aid medical assistance will be available at the Competition Centre, as well as an ambulance for emergency treatment.

The insurance coverage, the accident response protocol, and the accident report are published and detailed on the website.

## CANINE RESCUE TEAM

The organization will have the UCAS DE ARRATE team, a canine rescue team.

During the strategy, each team will be given a cloth handkerchief, which they must keep close to their body until the start of the race to capture the person's scent. Afterward, they will be collected and placed in sealed plastic bags with the team's race number.

If a team needs to be searched for, these handkerchiefs will be used so the dogs can sniff them.

## SAFETY MEASURES FOR RUNNERS AND RACE REGULATIONS

Participants will be responsible for the following safety measures throughout the competition, in addition to accepting the Disclaimer detailed on the following page.

- Do not take unnecessary risks (dangerous rocky areas and large cliffs).
- Participants have a GPS safety system with a hazard warning.
- Participants have the right to use a sealed cell phone, which will be used only in case of emergency.
- Participants must contact the organizers in case of any dangerous situation or unexpected event that may pose a danger to runners.
- Emergency numbers: 112, +34 659839169, +34 699634889. These numbers will be also on the map.

### RACE RULES

- Do not enter private properties or disturb livestock.

The detailed protocol to follow in the event of an accident can be found on the website.

That they are physically trained for the competition, that they are in good general health, without suffering from any illness, physical condition or injury that could be aggravated by my participation in mentioned event. If during the event, they suffer any type of injury or any other circumstance that could seriously harm their health, they will inform the Organization as soon as possible.

3. That they are aware that this type of competition, which takes place in the natural environment, in places that are difficult to control and access, entails an additional risk. Therefore, they attend following their own free will and initiative, assuming full responsibility for the risks and consequences arising from their participation.

4. That they have the physical capacity, technical skills and sufficient resources to guarantee their own safety, under the conditions of autonomy in which the race is held. Likewise, they have the required sports gear and safety equipment mentioned by the Organization. The participants are responsible and guarantee that their equipment is in good condition, is approved and they know how to use it properly. Last but not least participants will wear/carry the appropriate gear/equipment throughout the competition.

5. That they will behave responsibly, avoiding to increase the risks to their physical or mental integrity. Participants will follow the instructions and abide by the decisions made by those responsible for the Organization (judges, doctors and organizers) on safety issues.

6. Following the previously mention arguments and statements, the WRC2025 organization rejects any responsibility that may arise from registering and participating in the event. Each person participates at his/her own risk. Every participant is responsible for his/her own decisions during the race.

7. That **each person participates voluntarily and under their own responsibility in the race**. Hence, the Organization, collaborators, sponsors, and any other participants are exonerated or exempted from any liability for any physical or material damage and, therefore, WAIVES the right to file a complaint or claim against them.s.

8. They undertake to follow the general guidelines for respecting the environment listed below:

- a) Travel with caution on tracks, paths and roads open to traffic.
- b) Travel slowly and safely in the presence of people, animals, or vehicles.
- c) Do not cause alterations to the environment and natural functioning of ecosystems.
- d) Do not damage biotic, geological, cultural or, in general, landscape resources.
- e) Avoid or bypass environmentally sensitive areas.
- f) Relieve one's physiological needs in appropriate places or, in any case, out of the water and far from points of passage or gathering of people.
- g) Do not light a fire or cause situations enhancing risk of fire.
- h) Do not use or install any type of structure or element that leaves a permanent mark on the environment.
- i) Do not litter or abandon objects or solid or liquid waste outside the places usually designated for their collection.

9. That they authorize the event Organization to take any photographs, film and or record participants during the event. Participants authorize the organization to use the mentioned material if it is exclusively related to the participation in this event.

# FUN ROGAINING

There will be a 6-hour Fun Rogaining event aimed at less experienced runners.

**Program:** It will start at 2:00 PM and end at 8:00 PM on Saturday, July 5, 2025. It will use the same start, finish, and map as the Rogaining World Championship. The map delivery will be at 13:30.

**Registration** for the 6-hour Fun Rogaining event will open on March 16, 2025, and close on June 20, 2025. There is no limit to the number of participants. Registration can be completed at the following link:

<https://nonstoprun.com/WRC2025>

Payment will be made via an electronic payment gateway. Bizum will also be accepted for Spanish runners.

Registration is only considered complete upon receipt of payment. **Any team member changes** made after registration **will have a fee of €8**.

Merchandise, event templates, thermal blankets, and tent rentals may be purchased during or after the registration process.

## Cancellation and refund policy:

- If the WRC and Fun Rogaining are canceled due to force majeure, the cancellation and refund policy is the same as for the WRC, detailed on page 9.
- If the participant cancels: 50% of their registration fee will be refunded by June 20th. After that date there will be no refund. Merchandise costs will not be refunded, but they can be sent to participants.

# TRAVEL AND ACCOMMODATION

## TRANSPORT

There are several airports relatively close to Quintanar de la Sierra operating international flights.

The main and largest airport is Madrid Barajas Adolfo Suárez Airport (MAD) (250 km).

<https://www.aena.es/es/adolfo-suarez-madrid-barajas.html>

Other airports operating international flights, mainly from Europe, are: Bilbao-Loiu Airport (BIO) – Bilbao (230 km), Santander-Seve Ballesteros Airport (SDR) – Santander (270 km), Vitoria Gasteiz Foronda Airport (VIT) – Vitoria (200 km), Zaragoza Airport (ZAZ) – Zaragoza (230 km).

All airports offer the possibility of renting a vehicle, either at the airport, or at nearby businesses.

There is no official transportation for participants offered by the organisation. If you plan to make use of public transportation, the best option is to take the train or bus to Burgos. From Burgos bus station there is a bus service to Quintanar de la Sierra. [More details on the website.](#)

## ENTRY TO THE COUNTRY

To enter the country as a tourist, all citizens of any state of the European Union, Switzerland, Norway, Iceland and Liechtenstein only need a valid passport or national ID.
